Who are Tinker's Creek Watershed Partners?

Tinker's Creek Watershed Partners (TCWP) is a non-profit, 501(c)(3) watershed organization officially established in 2006. **Our mission is to protect and restore water quality and habitats of the Tinker's Creek watershed through community partnerships.**

TCWP assists communities with stormwater compliance, best management practices, and policies that help protect water resources. We also provide education and outreach to the public and elected officials to help create watershed stewardship.

FACTS: The Tinker's Creek watershed is comprised of 24 communities, and drains 96.4 square miles of land into Tinker's Creek. Tinker's Creek is also the largest tributary to the Cuyahoga River.

What Does My Membership Provide?

Your tax deductible Business Membership will support outreach and planning that promote watershed protection such as:

- The development of the annual stormwater conference which provides education and training to attendees.
- Projects throughout the watershed including our grant program to fund stormwater best management practices.
- Events throughout the watershed such as the annual Tinker's Creek Watershed Festival.
- Scientific research and studies throughout the watershed.
- Workshops and educational presentations for the watershed communities.

Member for \$250/year!**

What Are the Benefits of Membership?

A Business Membership with the Tinker's Creek Watershed Partners will provide your business or organization in with recognition as an active environmental steward.

Benefits include:

- One free Regular Attendee registration (valued at \$195) at the 2017 Ohio Stormwater Conference (does not include exhibitor registration and booth space).
- Recognition in all TCWP newsletters, presentations and workshops and on our website.
- Recognition at fundraising and TCWP planned events.

In addition, Business Members are invited to participate in TCWP board meetings as non-voting members. This allows Members to meet our board of directors, and learn about the latest issues affecting the Tinker's Creek watershed.
