## KEEP YOUR YARD GREEN AND OUR WATERS CLEAN

Tuesday, August 7, 2018—5:30-7:00 p.m.

Pierce Streetsboro Library | Community Meeting Room

8990 Kirby Land, Streetsboro, OH 44241

Have you ever wondered how your yard is connected to Lake Erie? Or what's up with that swamp nearby?

Do you want to know more about lawn care that's "green" but doesn't skimp on a manicured look?

Do you have a spot in your yard that just won't stop flooding?

Come find out answers, solutions, and information to these questions and more at the Pierce Streetsboro Library!

Watershed Coordinator, Kate Chapel, will give a presentation on lawn care and household products and how they interact with your watershed. Presentation will last approximately 1 hour with time for questions afterwards.

Partnering with the City of Streetsboro
